

Moore's Mill Mailbox Replacement Specs and Repair Contacts

Please be sure your mailbox is freshly painted with gloss black paint with all appropriate hardware in place including the flag and ornamental scroll piece (see as pictured, below). If your mailbox is rusted or dented, please don't try to paint it. You may purchase a *metal smooth* (no plastic, no ridges) mailbox through any hardware store of your choice such as Lowe's, Home Depot, Ace Hardware or Smith T Hardware. Please make sure you attach the mailbox to the pole securely so that it won't rock when the mail carrier opens it to deliver your mail. Please do not apply any generic adhesive letters or numbers on your mailbox.

The **lettering and numbering** for the mailbox must be:

University Roman, Size: 1 and 1/4 inches high and in ALL CAPS.

Vendors for the vinyl lettering include:

- Advanced Graphics, [334-501-8600](tel:334-501-8600)
- Luke McAlister, [334-319-1100](tel:334-319-1100)
- Sign World, [334-821-6303](tel:334-821-6303)
- Auburn Reprographics & Supply, [334-501-8235](tel:334-501-8235)

If your mailbox **post** needs replacement you may contact:

- Jack Heptinstal (at East Alabama Welding) [334-749-5262](tel:334-749-5262)
- Travis Mellons [334-704-9808](tel:334-704-9808)

Luke McAlister [334-319-1100](tel:334-319-1100) can assist with complete mailbox replacement including post and decorative scroll replacement, or with any individual aspect of mailbox repair as needed.
